The Premium Plan covers all of the above uninsured services for only a little more than the standard plan. It allows me to provide patients with the best possible care and includes telephone prescription renewals, missed appointment charges, and the added security of being able to get telephone advice.

Note: The Extended Coverage plans include the most common uninsured services. As well, in certain, rare instances, some of the above services may be covered by OHIP. For more information please see the previous page, or call the number provided in this letter.
